

Press Release

Alexandra Wittmann joins GROPYUS AG as Chief Financial Officer

Vienna, 2 January 2023. GROPYUS AG, the Austrian proptech specialising in sustainable and serial construction and living solutions, is expanding its management team. Alexandra Wittmann is joining the management team on 1 January 2023. In becoming the new Chief Financial Officer, Ms Wittmann will assume responsibility for finance and procurement.

“I am delighted that we have been able to add Alexandra Wittman, a proven financial expert, to the team. Aside from many years of experience in the manufacturing industry, she also has expansive knowledge of operations and strategy development. She will perfectly complement the existing GROPYUS management team,” says Markus Fuhrmann, CEO of GROPYUS.

Alexandra Wittmann has international expertise through various financial management positions in market-leading industrial and technology companies, such as HOERBIGER Compression Technology, Riedel Crystal of America, and Colt Technology Services.

Wittmann was most recently Executive Vice President and CFO of the Compression Technology Division at HOERBIGER Compression Technology, which has more than 2,300 employees. Prior to that, the new Austrian board member worked internationally in various management positions, including as CFO of Colt Technology Services in Vienna and Zurich and for Riedel Crystal of America in New York. Wittmann is a graduate of the Vienna University of Economics and Business Administration and also completed training in organisational development and leadership at the University of St. Gallen in Switzerland.

“I am grateful for the trust placed in me by the GROPYUS Supervisory Board. I look forward to embracing my role, and advancing this successful company in collaboration with a great team. We will be further optimising the company’s economic foundations to bolster innovation in digitalisation and production,” says Alexandra Wittmann, GROPYUS’s new CFO.

About GROPYUS

GROPYUS AG creates sustainable, affordable and smart living for everyone. The proptech is digitalising and transforming the housing market, establishing housing as a service-driven product (“Living as a service”). This is how GROPYUS creates high-quality, resource-efficient, and affordable living spaces that meet the highest standards in terms of design, comfort and functionality. GROPYUS has set a new standard for sustainable and smart living with its platform-based and fully digitalised timber-hybrid buildings. GROPYUS currently employs around 300 employees at its locations in Germany, Austria and Liechtenstein. www.gropyus.com/en
